LEED for Homes Providers

All Green Raters work with LEED for Homes Provider Organizations to complete the verification process for each LEED for Homes project. Providers have the following responsibilities:

- Deliver the Program on behalf of the USGBC.
- Provide technical support for the LEED for Homes Rating System
- Review and submit final certification documents to the USGBC.

LEED for Homes Providers provide quality assurance oversight for each Green Rater. LEED for Homes Providers are organizations selected by the USGBC based on demonstrated experience and expertise in supporting builders in the construction of high-performance, sustainable homes in their market.
